Abstract

Linguistics studies the whole factors of the languages. Language is the best communication tool for keeping the relations between the peoples and nations, for developing political, educational, scientific and economical system all over the world. For that reason, it is one of the hardest loads for scholarships to analyze theory of languages and present the essential suggestions to the new generation. Furthermore, as the discourse arises the key of the effective communication, we, scientists should research and prove the field in details.

Keywords: discourse analysis, linguistics, communication effectiveness, linguistic theory
